CHANGES AND ERRORS EXCEPTED

### DATADOMUM RECORDER

- Future-proof software solution for the audio recording of conferences
- Multilingual, intuitive user interface for maximum ease of use
- Simultaneous recording of multiple audio tracks (separately controllable)
- Innovative storage concept - audio data is saved every minute
- Connection of several USB microphones (e.g. MPC 70 USB / BM 53 USB boundary microphones)
- Volume controlled recording start and stop can be regulated separately for each track
- Listening to individual tracks for optimal speech intelligibility
- Targeted retrieval of relevant speeches
- Play the recording at any position while the recording is in progress
- Increase and decrease the playback speed
- Insert markings (TOP markers, speaker markers, universal markers) in the recording
- Import of session data from ALLRIS software
- Save speaker profiles with a photo
- Embed any files (e.g. Excel or PowerPoint)
- Direct scanning of documents via TWAIN-compatible scanners
- Assignment of markers with webcam snapshots
- Import and export of marker and speaker lists
- Full text search function for prepared and set markers
- Export meetings to other locations
- Burn meetings to CD / DVD
- Export audio data in WAV / WMA / MP3 - format
- Free player software to play recorded meetings on other PCs
- Convenient control of playback via optional USB foot switch
- Compatible with steno-s 4 meetings
- Import of unencrypted meetings from older steno-s versions (1.x / 2.0 / 3.0)
- Developed for Windows 10

**ADD-ON MODULE: CONFERENCE**

- Connection to conference systems from beyerdynamic and Shure [see system requirements]
- Automatic marker assignment when activating microphone units
- Presentation of all microphone units in a graphic room view
- Control of microphone units (on / off)
- Change of conference parameters [varies depending on the conference system]
- Registration mode [varies depending on the conference system]
- Talk time recording
- Virtual conference system

**ADD-ON MODULE: DISPLAY**

- Visualizes session data on large screens, hall displays and visitor guidance systems
- Display of attributes such as agendas, lists of speakers, speaking quotas, voting results and resolutions
- Unlimited number of monitors

**ADD-ON MODULE: MEDIACONTROL**

- Remote control of the DATADOMUM RECORDER via media controls or programs
- Output of status messages for monitoring and evaluating system events
- Low-latency network access
- Unlimited number of clients
